

17 April 1958

Mr. Henry Weadon
Chief Engineer of Survey Lodge
Department of Interior
National Capital Parks
Washington 25, D. C.

Dear Mr. Weadon:

Since receiving your letter of April 16 confirming the estimated cost of surveying our property at Langley, Virginia we find that for budgetary and accounting reasons it is best for us to have this work ordered through the Public Buildings Service of General Services Administration. We have written them asking that they issue such an order which you should receive in the near future.

Sincerely,

Chief, Building Planning Staff

cc: Public Buildings Service
(Mr. Sheldon)
